

UniKeep LLC • EcoEndure™ • Safety-sleeve® • EnvyPak™

January 26, 2009

Subject: Consumer Product Safety Improvement Act of 2008
(CPSIA)

Dear Valued Customer:

While understanding the importance of the CPSIA, at this time, Univenture, Inc. has not had testing performed on our products. As a producer of media packaging products we do not believe that the CPSIA 2008 testing requirements specifically apply to the products we provide.

With that said, Univenture has always been focused on the environmental and safety impact of our products and we continually work with our suppliers to control and monitor the non-use of heavy metals and other hazardous materials.

To that end we have documentation from our suppliers that the materials and products they supply for our line of UniKeep Binders and Wallets, Polypropylene disc packaging and EnvyPak line of mailers and envelopes do NOT contain the following:

- 1) Lead / Lead Compounds in concentrations greater than 100 ppm or
- 2) Specific Phthalates including DEHP, DBP, BBP, DIDP, DNOP, DNHP.

Please note that our line of PVC (Vinyl) Disc Packaging sleeves do contain DEHP as a plasticizer. Our suppliers are working on this issue but do not have alternatives identified at this time.

We will continue to monitor the specific details and impact of the CPSIA and will respond accordingly to help ensure that the products we provide you are safe for the environment and our customers.

Please feel free to contact me if you have any questions. I can be reached at our headquarters in Marysville, OH, at 937-645-4600 ext. 157.

Best Regards,

A handwritten signature in blue ink that reads "Derek Ailts".
